Europe's carbon price nears the 100 euro milestone

By Nina Chestney, Kate Abnett and Susanna Twidale

- Price of CO2 permits ends week at record high
- Analysts see 100 euro milestone within reach
- Carbon market EU's core policy to meet climate goals

LONDON/BRUSSELS, Feb 4 (Reuters) - The price of permits in the European Union's carbon market closed at a record high above 96 euros on Friday, with analysts expecting the symbolic 100 euro level could soon be breached

Dual Distributed Network (DDN) Solution

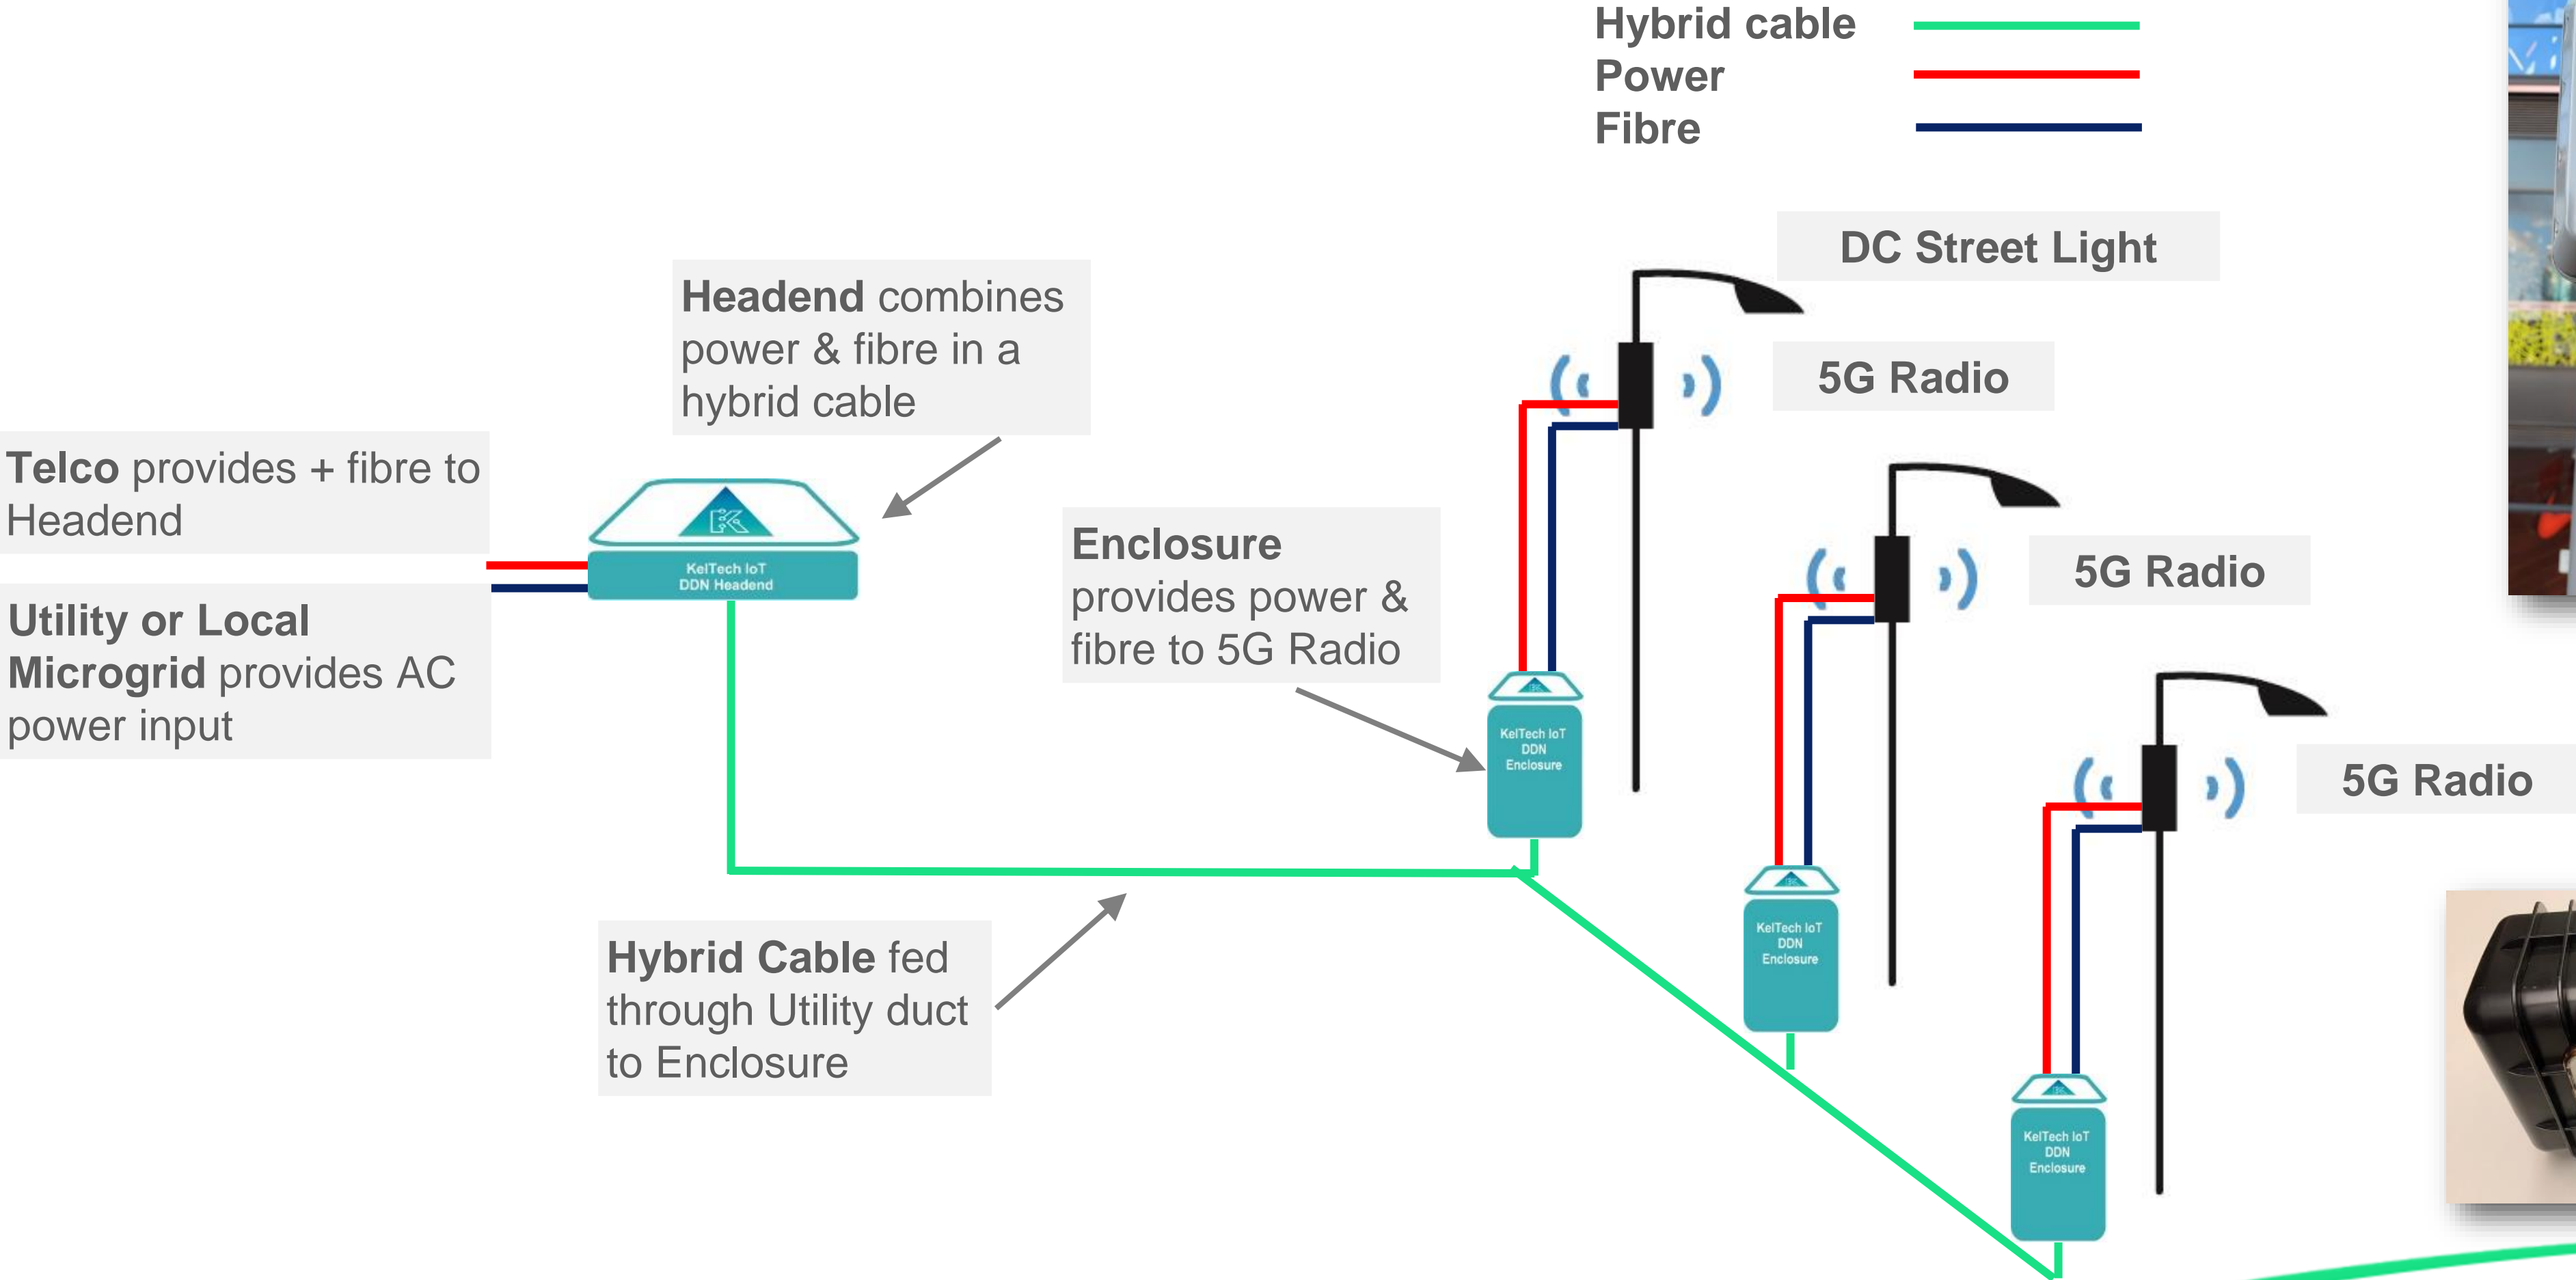

Combine last KM communication and energy network deployments

- Delivery power and data up to 2km from a central distribution point in a single cable system (fibre & copper)

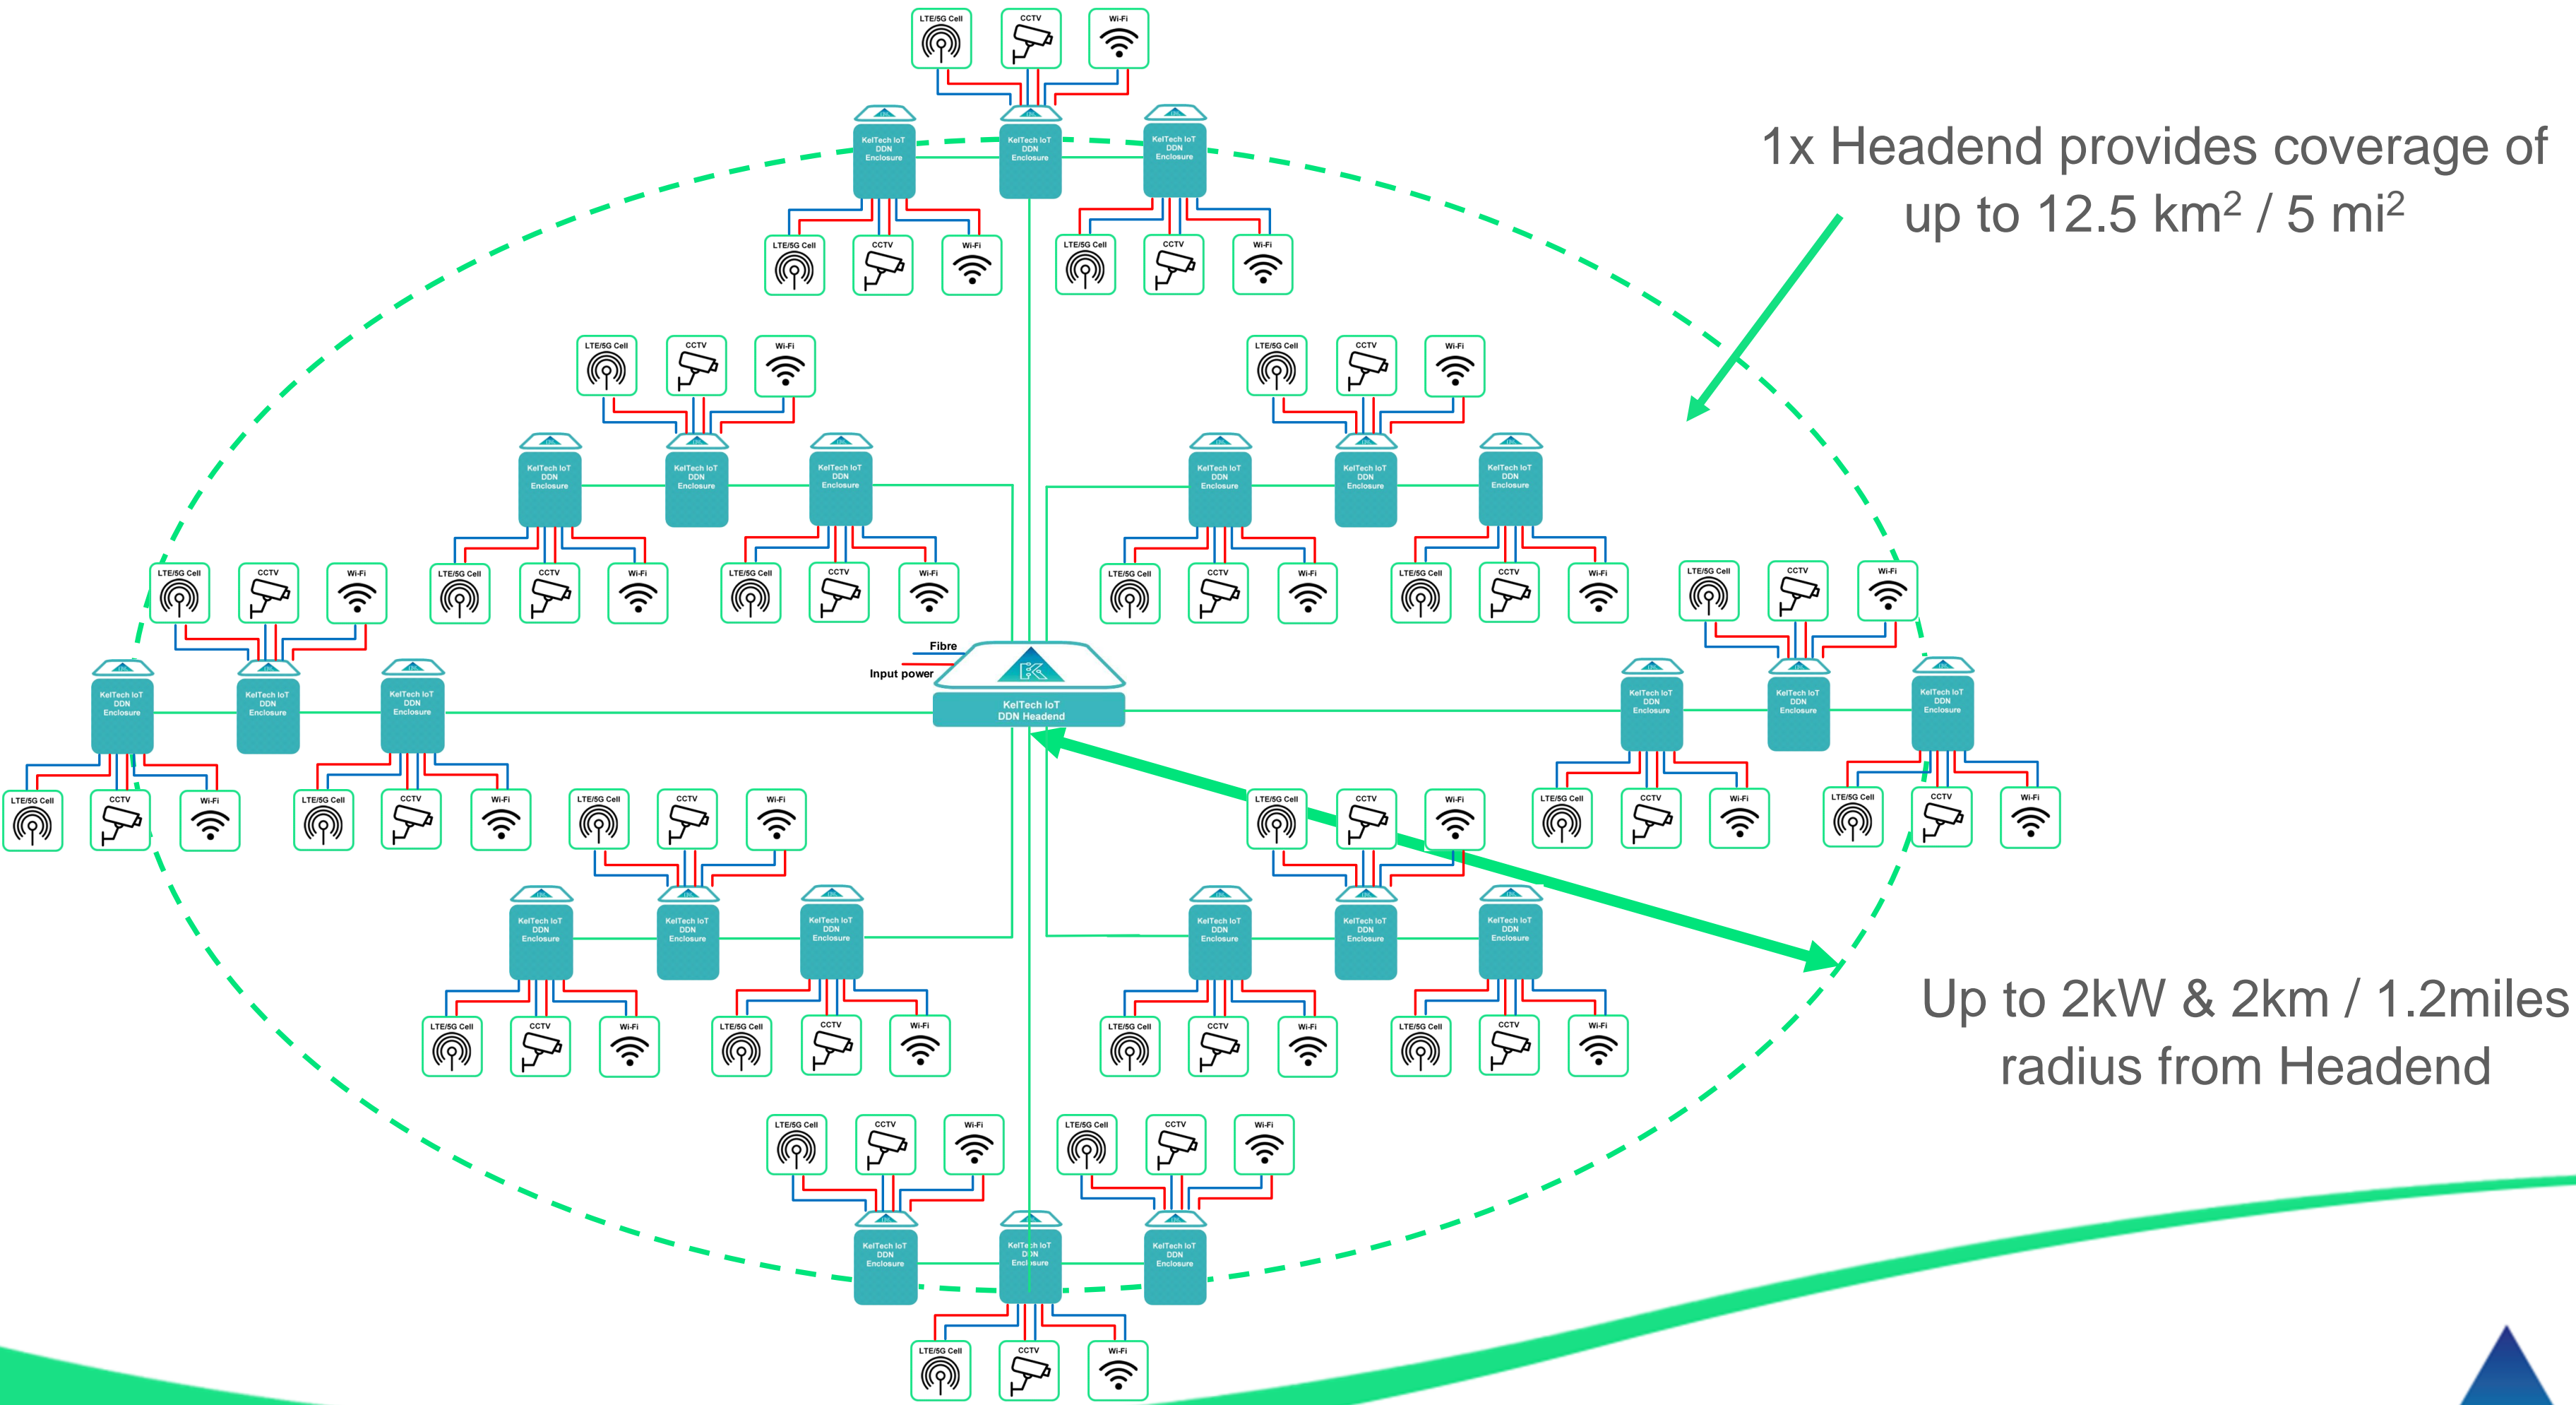

- Delivers Capex savings of 40%+
- Measurable ongoing energy savings of 15%+
- Operational Ease of Deployment

5G Neutral Host & Street Lighting

DDN Deployment Architectures

Point-to-Multipoint Scalable Solution

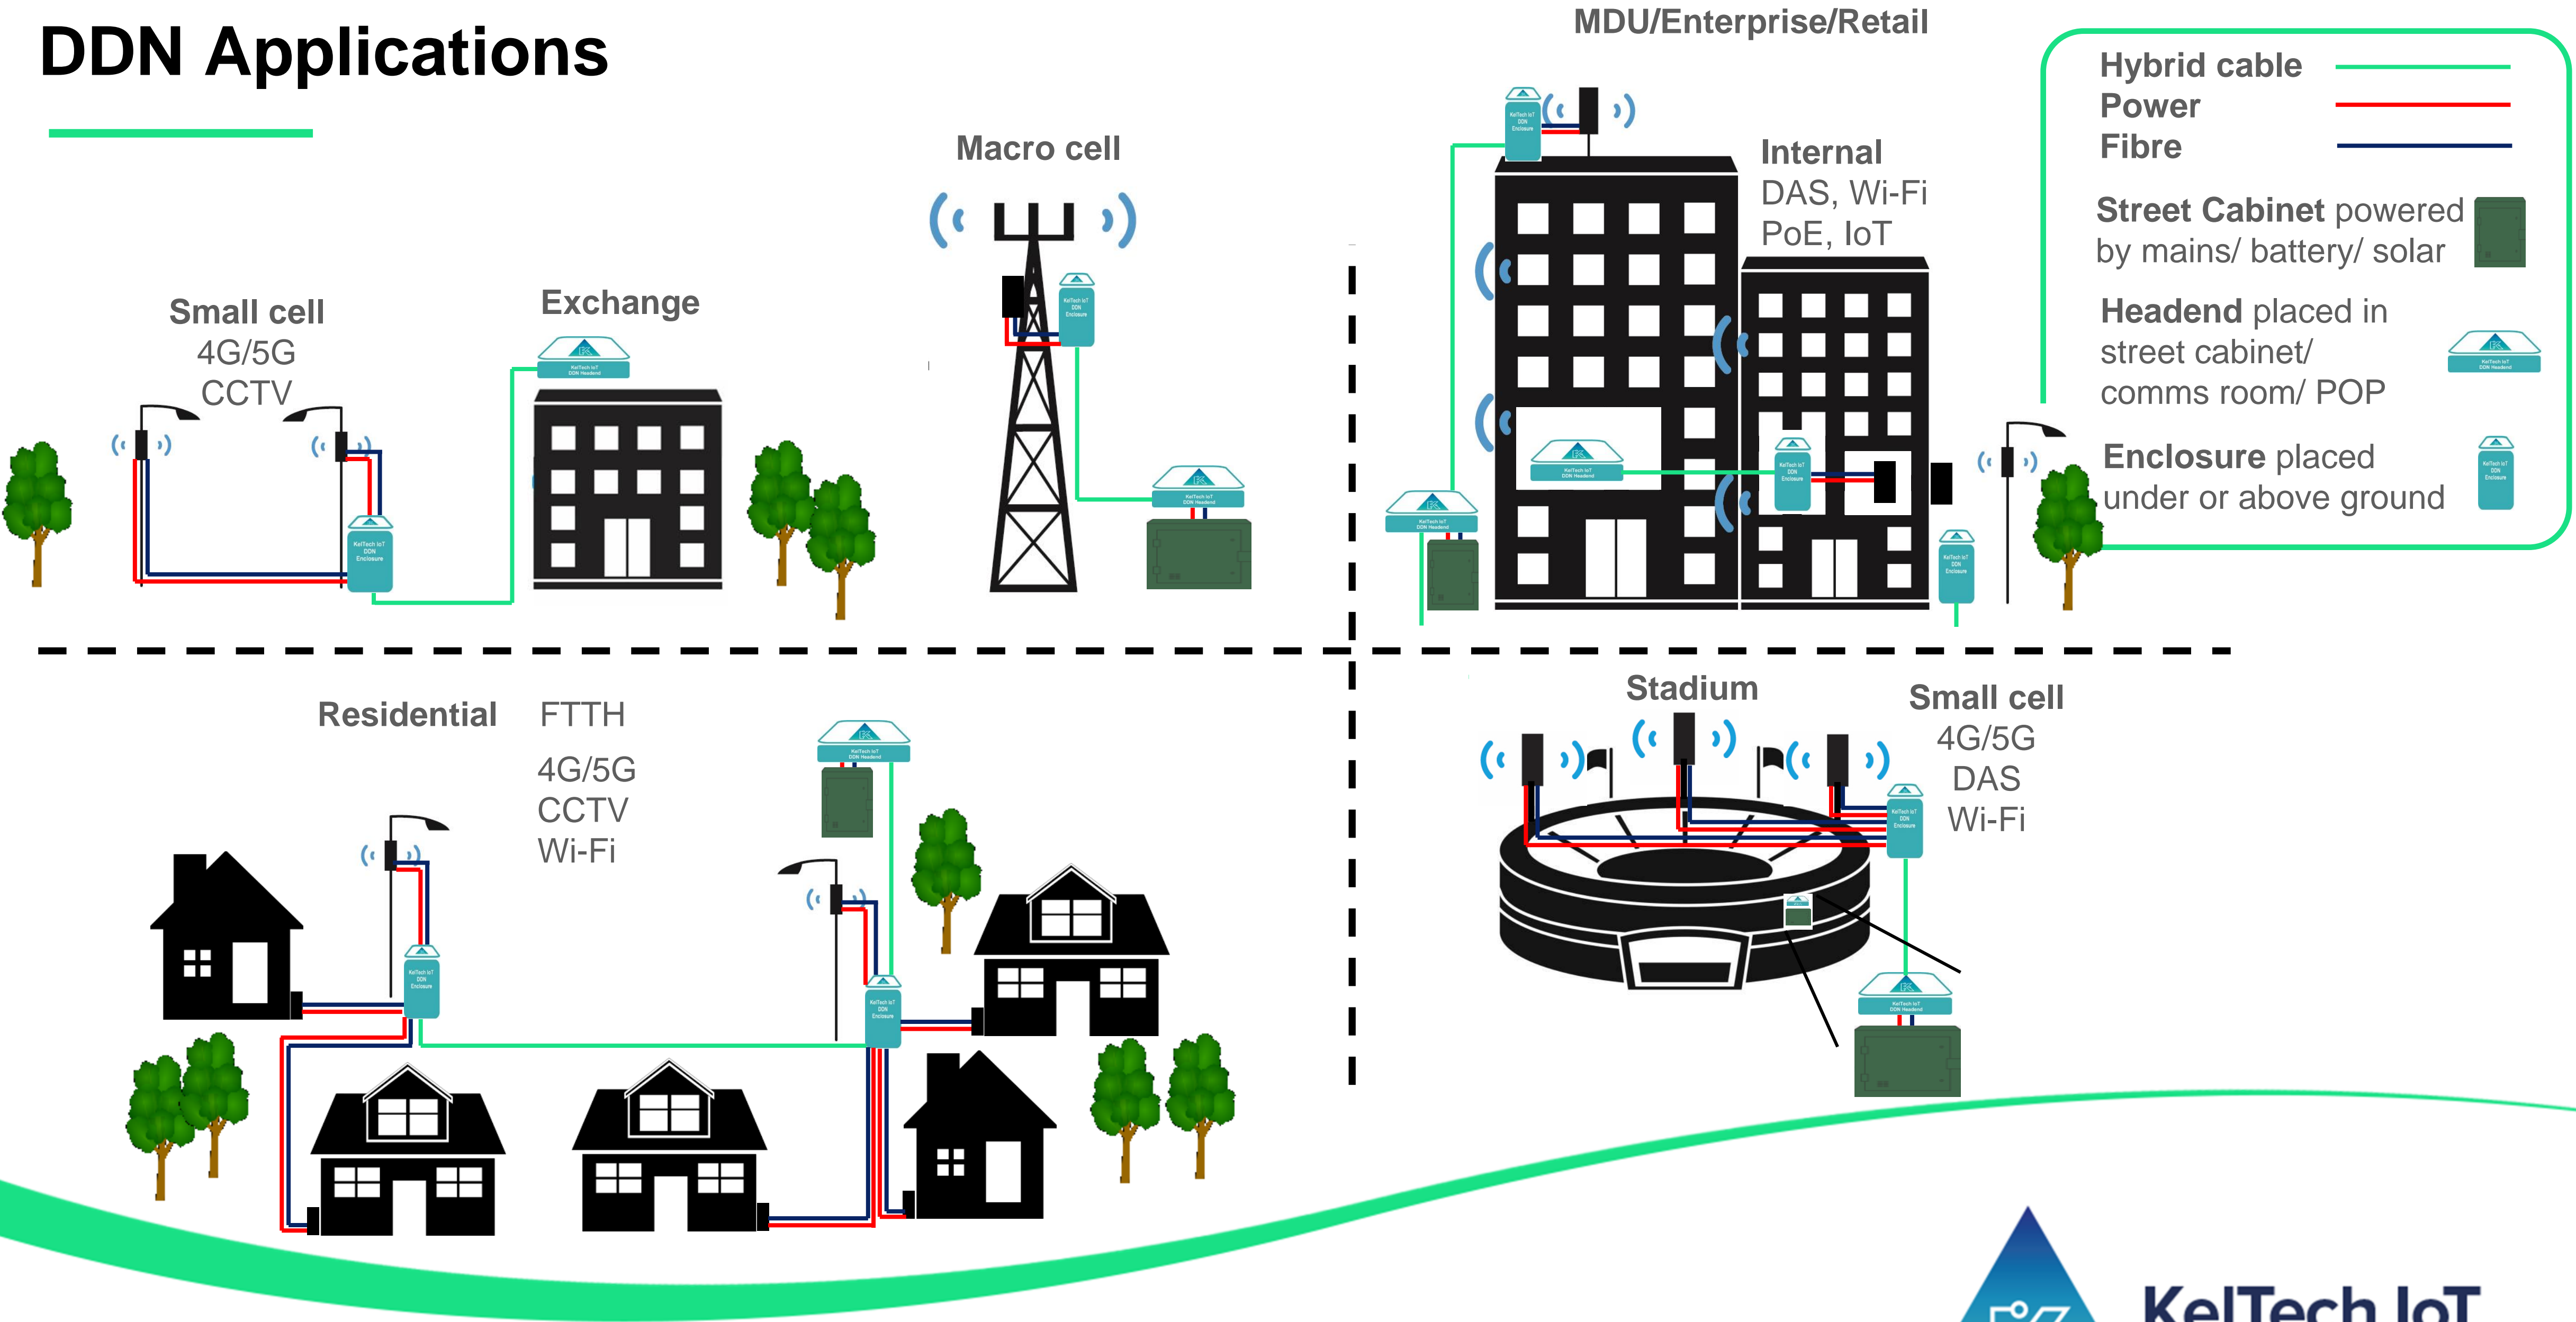

CASE STUDY

5G Deployment - Dublin City – 400 to 10!

- 25 km² topography constrained city
- Requirements
 - Design 5G radio (250m small cell radius) deployment
 - Provide power and data to all street furniture endpoints
 - Ensure UPS to all endpoints
- Implementation
 - 400 small cells (100W per cell)
 - 10 headends / 140 enclosures
 - 50 km of hybrid cable
- Future enabled deployment
 - Design provides additional capacity for increased density &/or wider reach beyond 25km²

DDN Applications

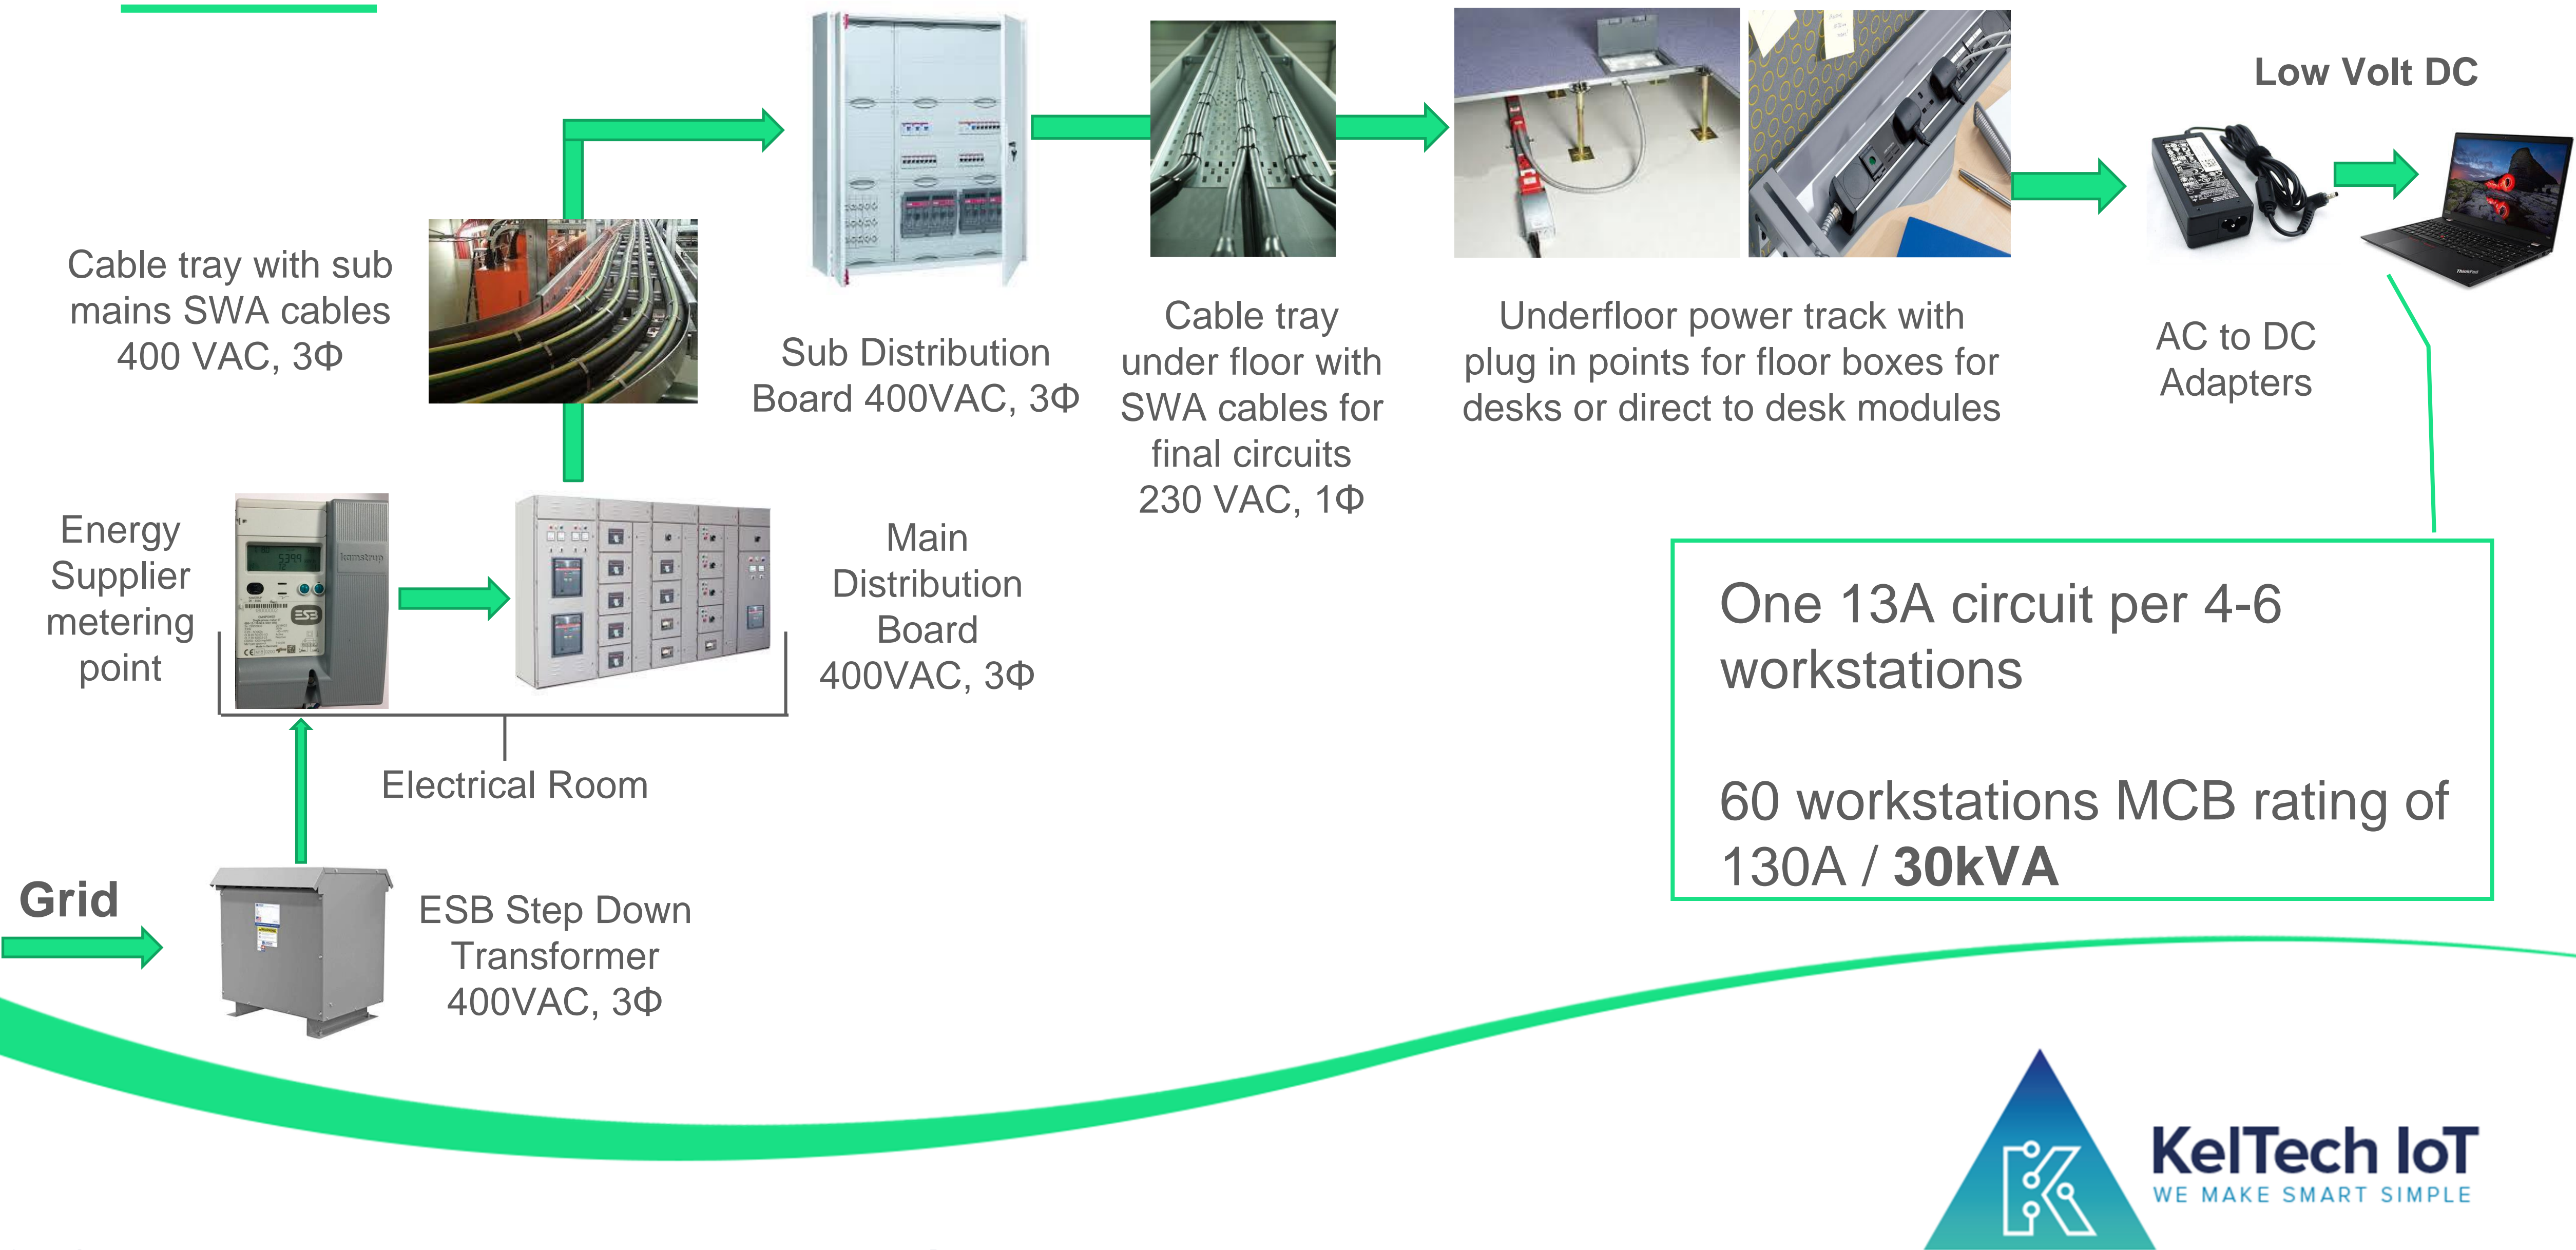

Pilot Project – ESB (Irish Utility)

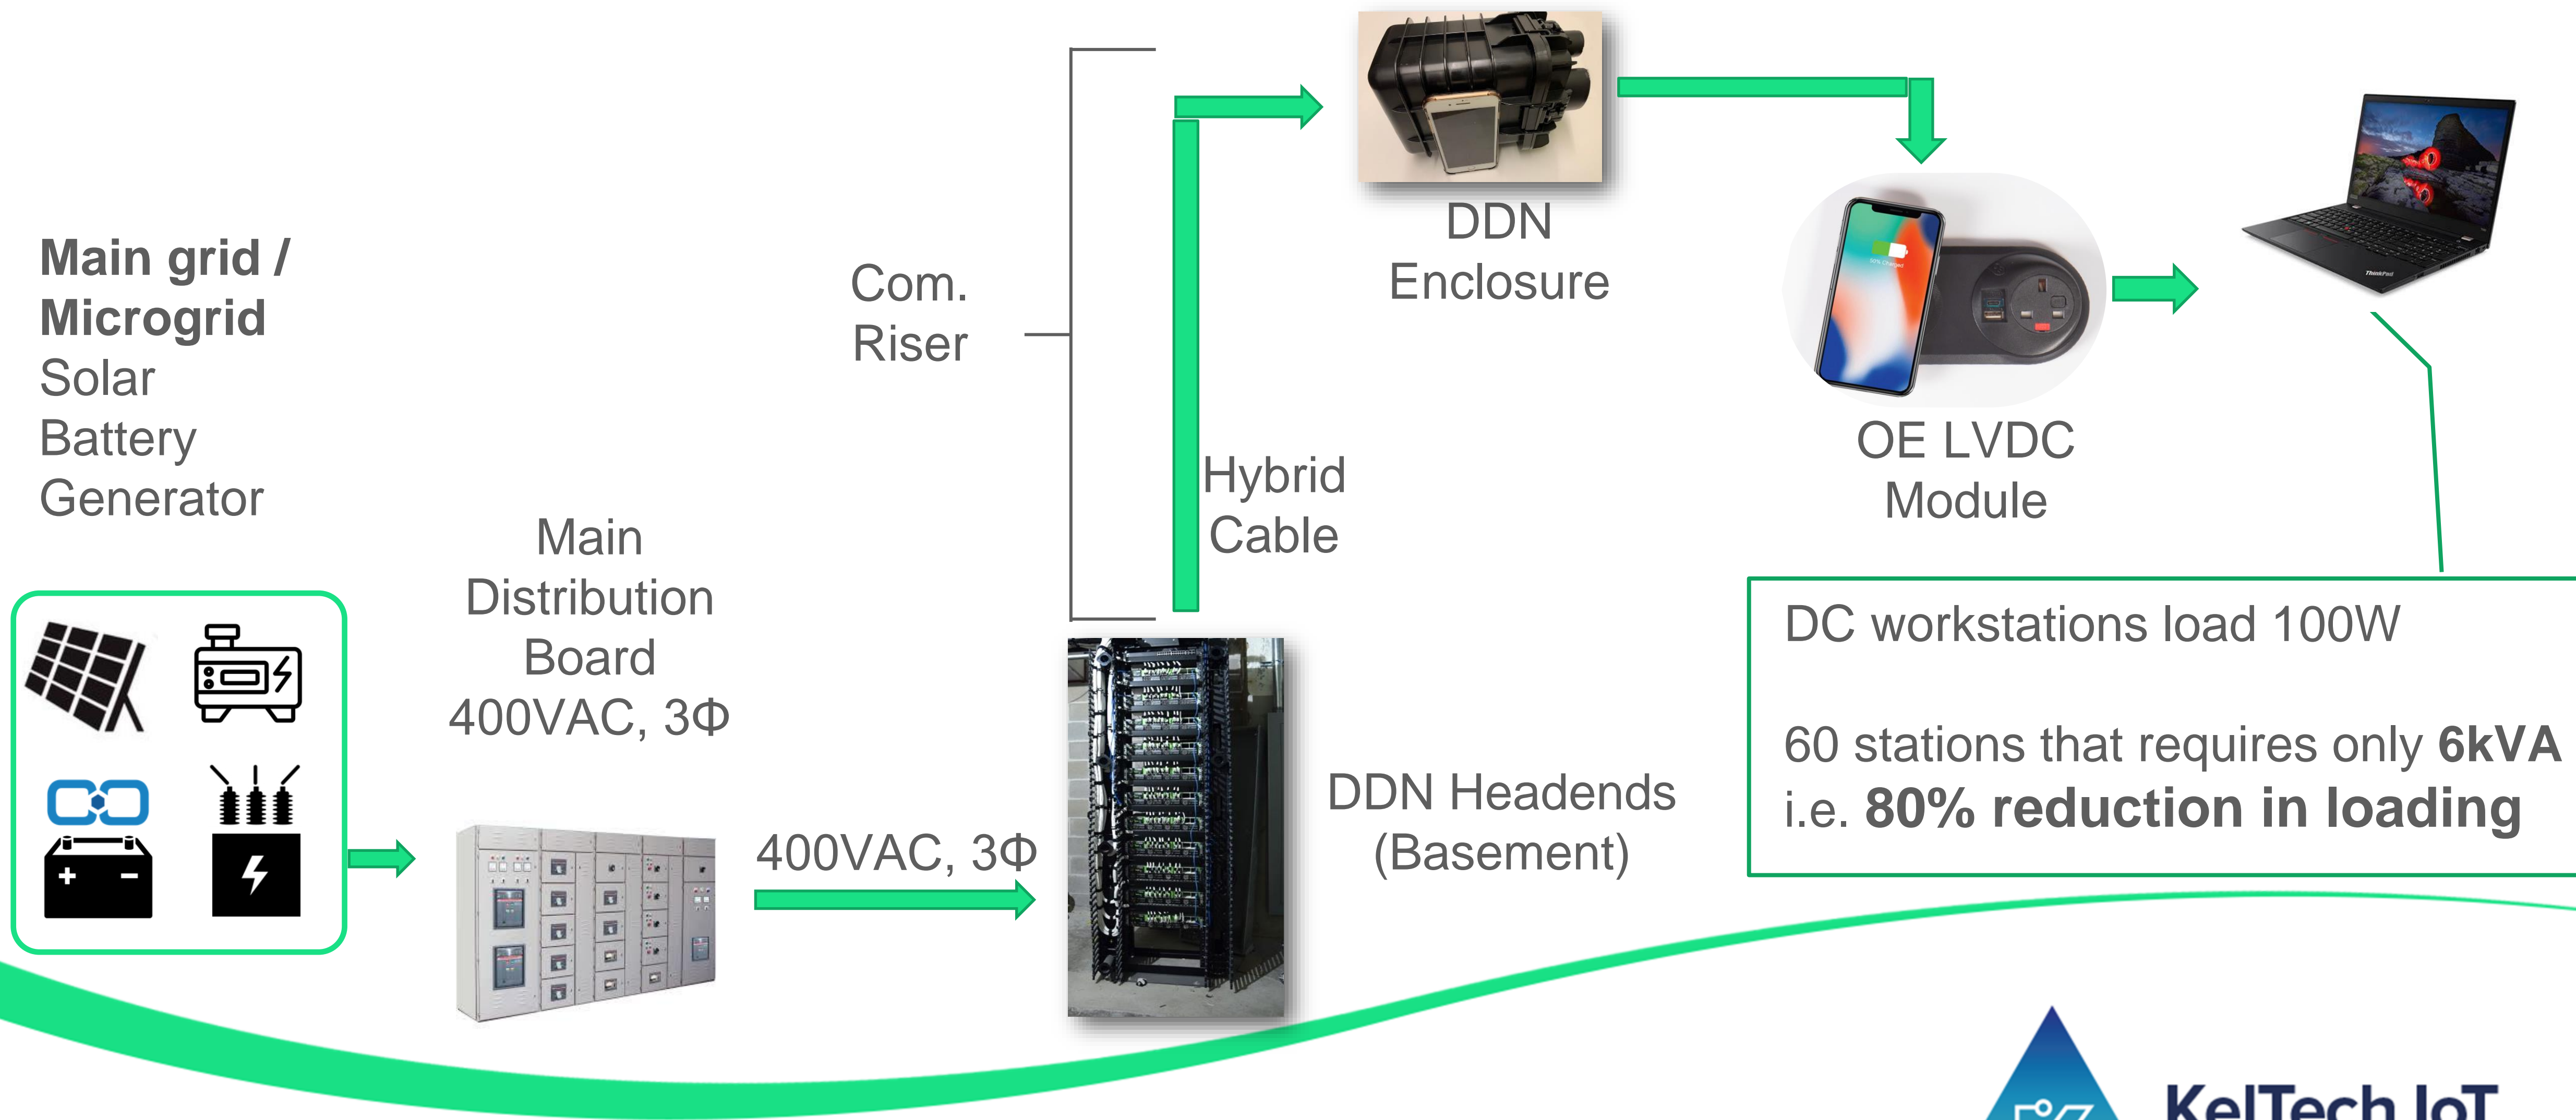

Amazon Wind Farm – Small Cell/Security Model Opportunity = 400 Wind Farms

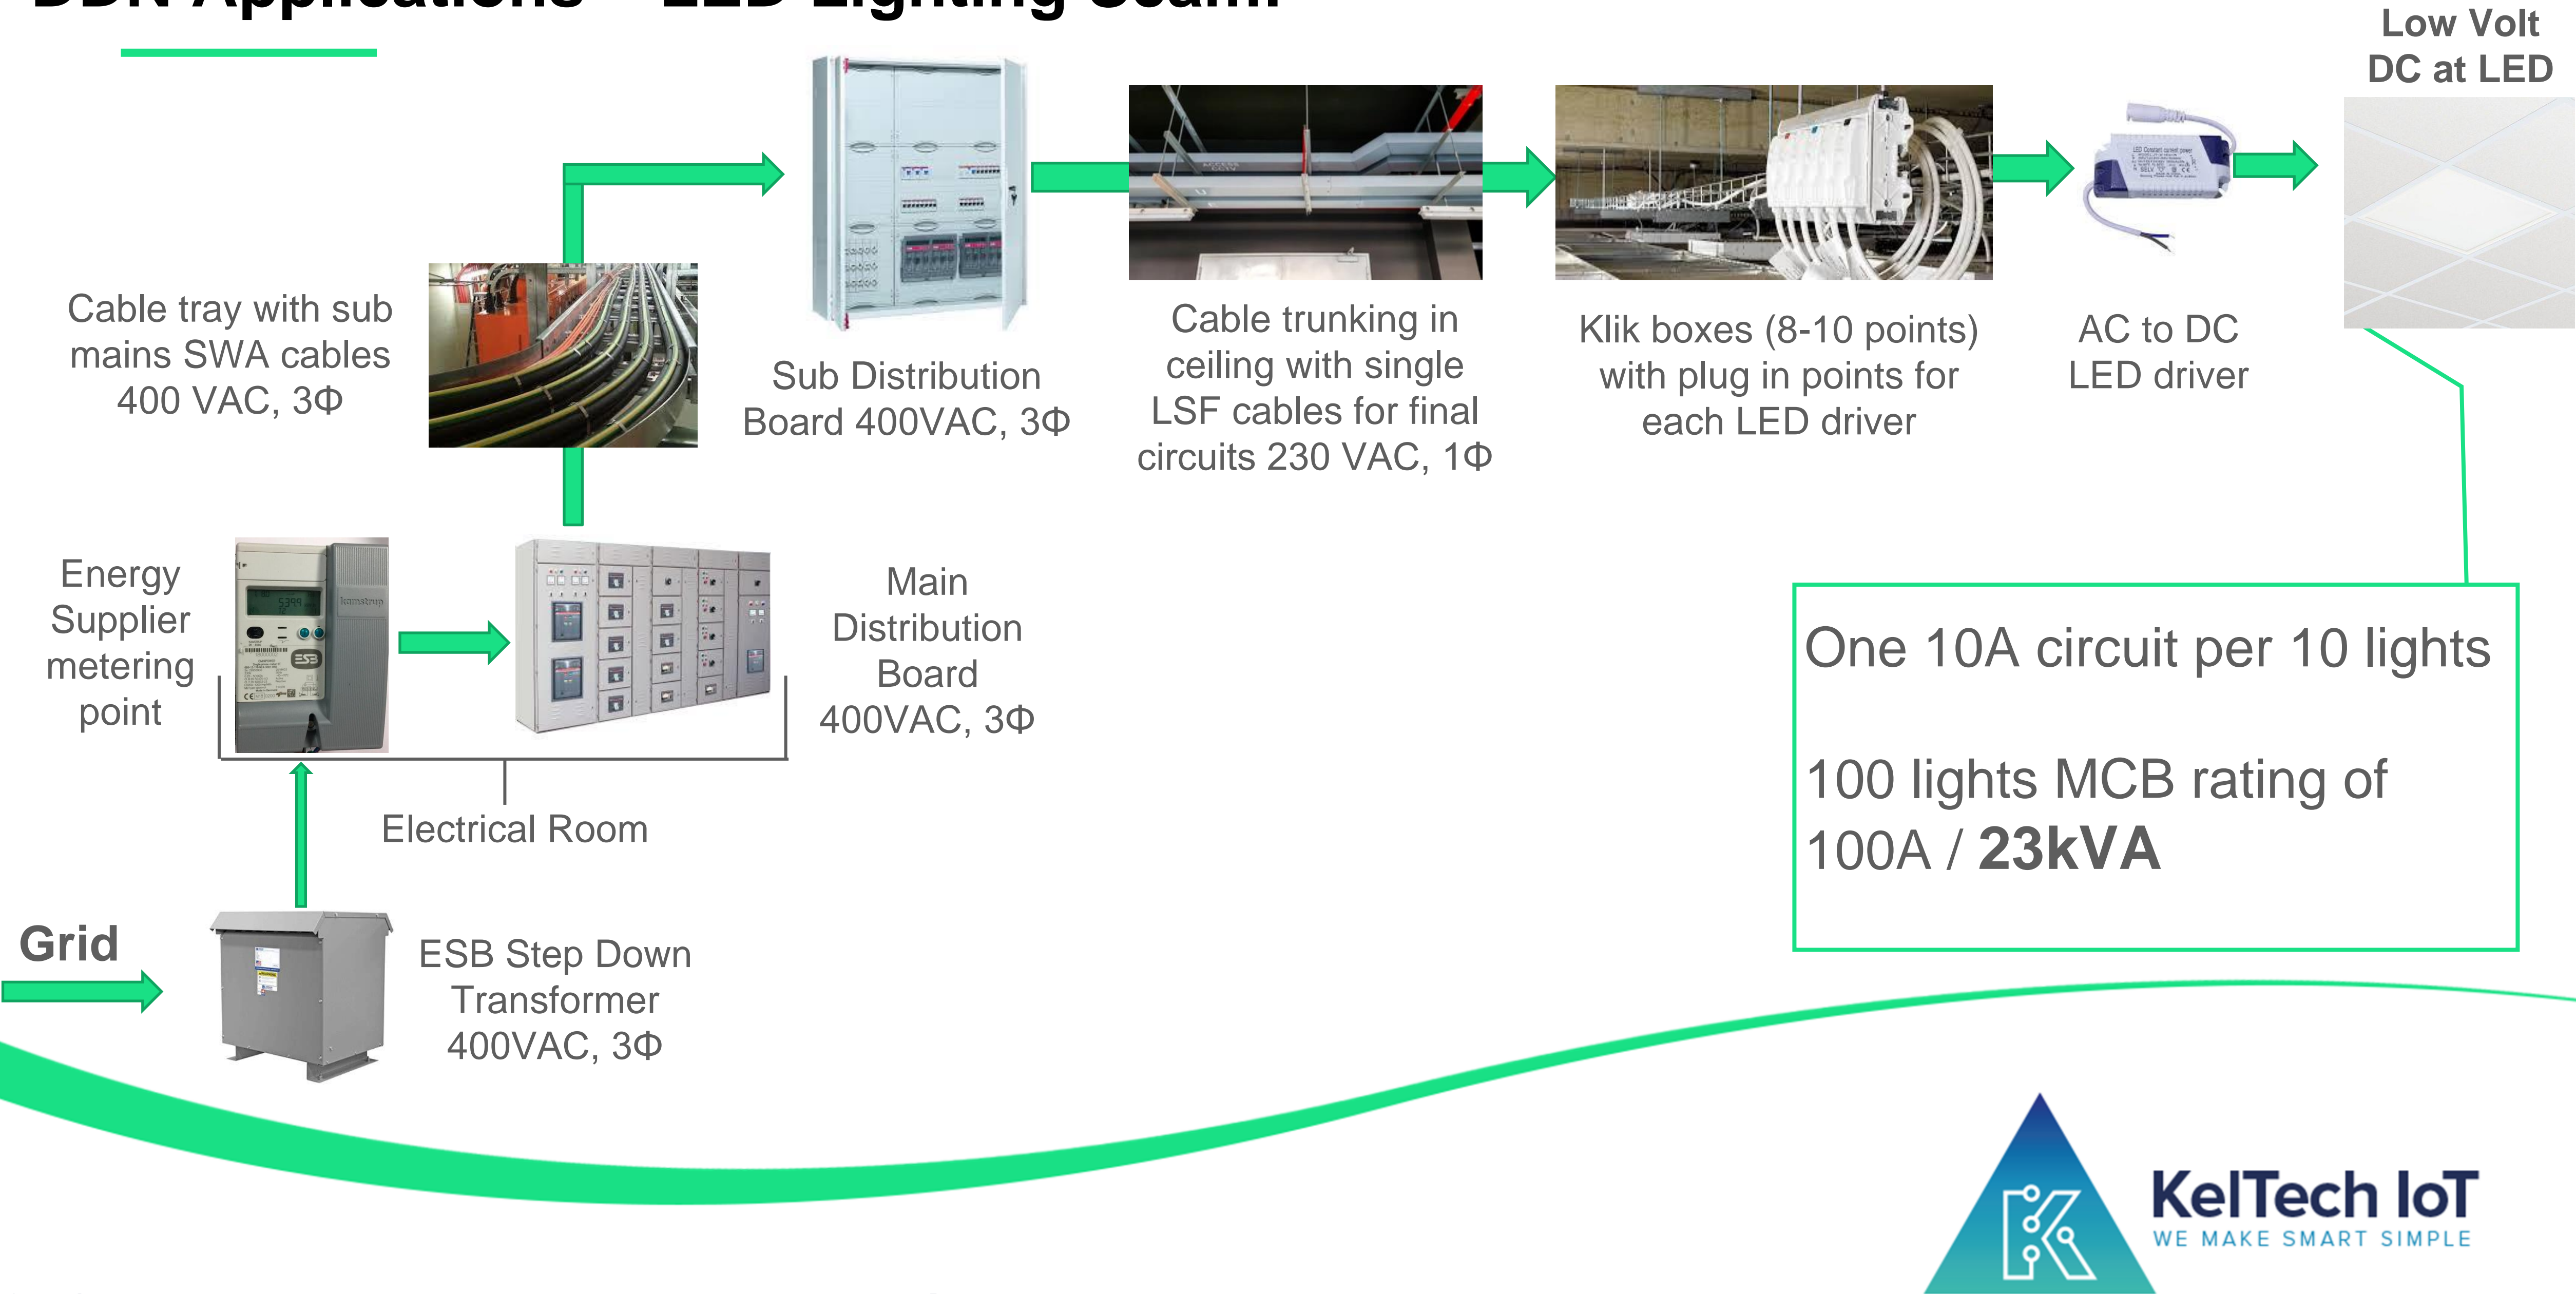

Insanity- Commercial Offices (Traditional AC model- Computers)

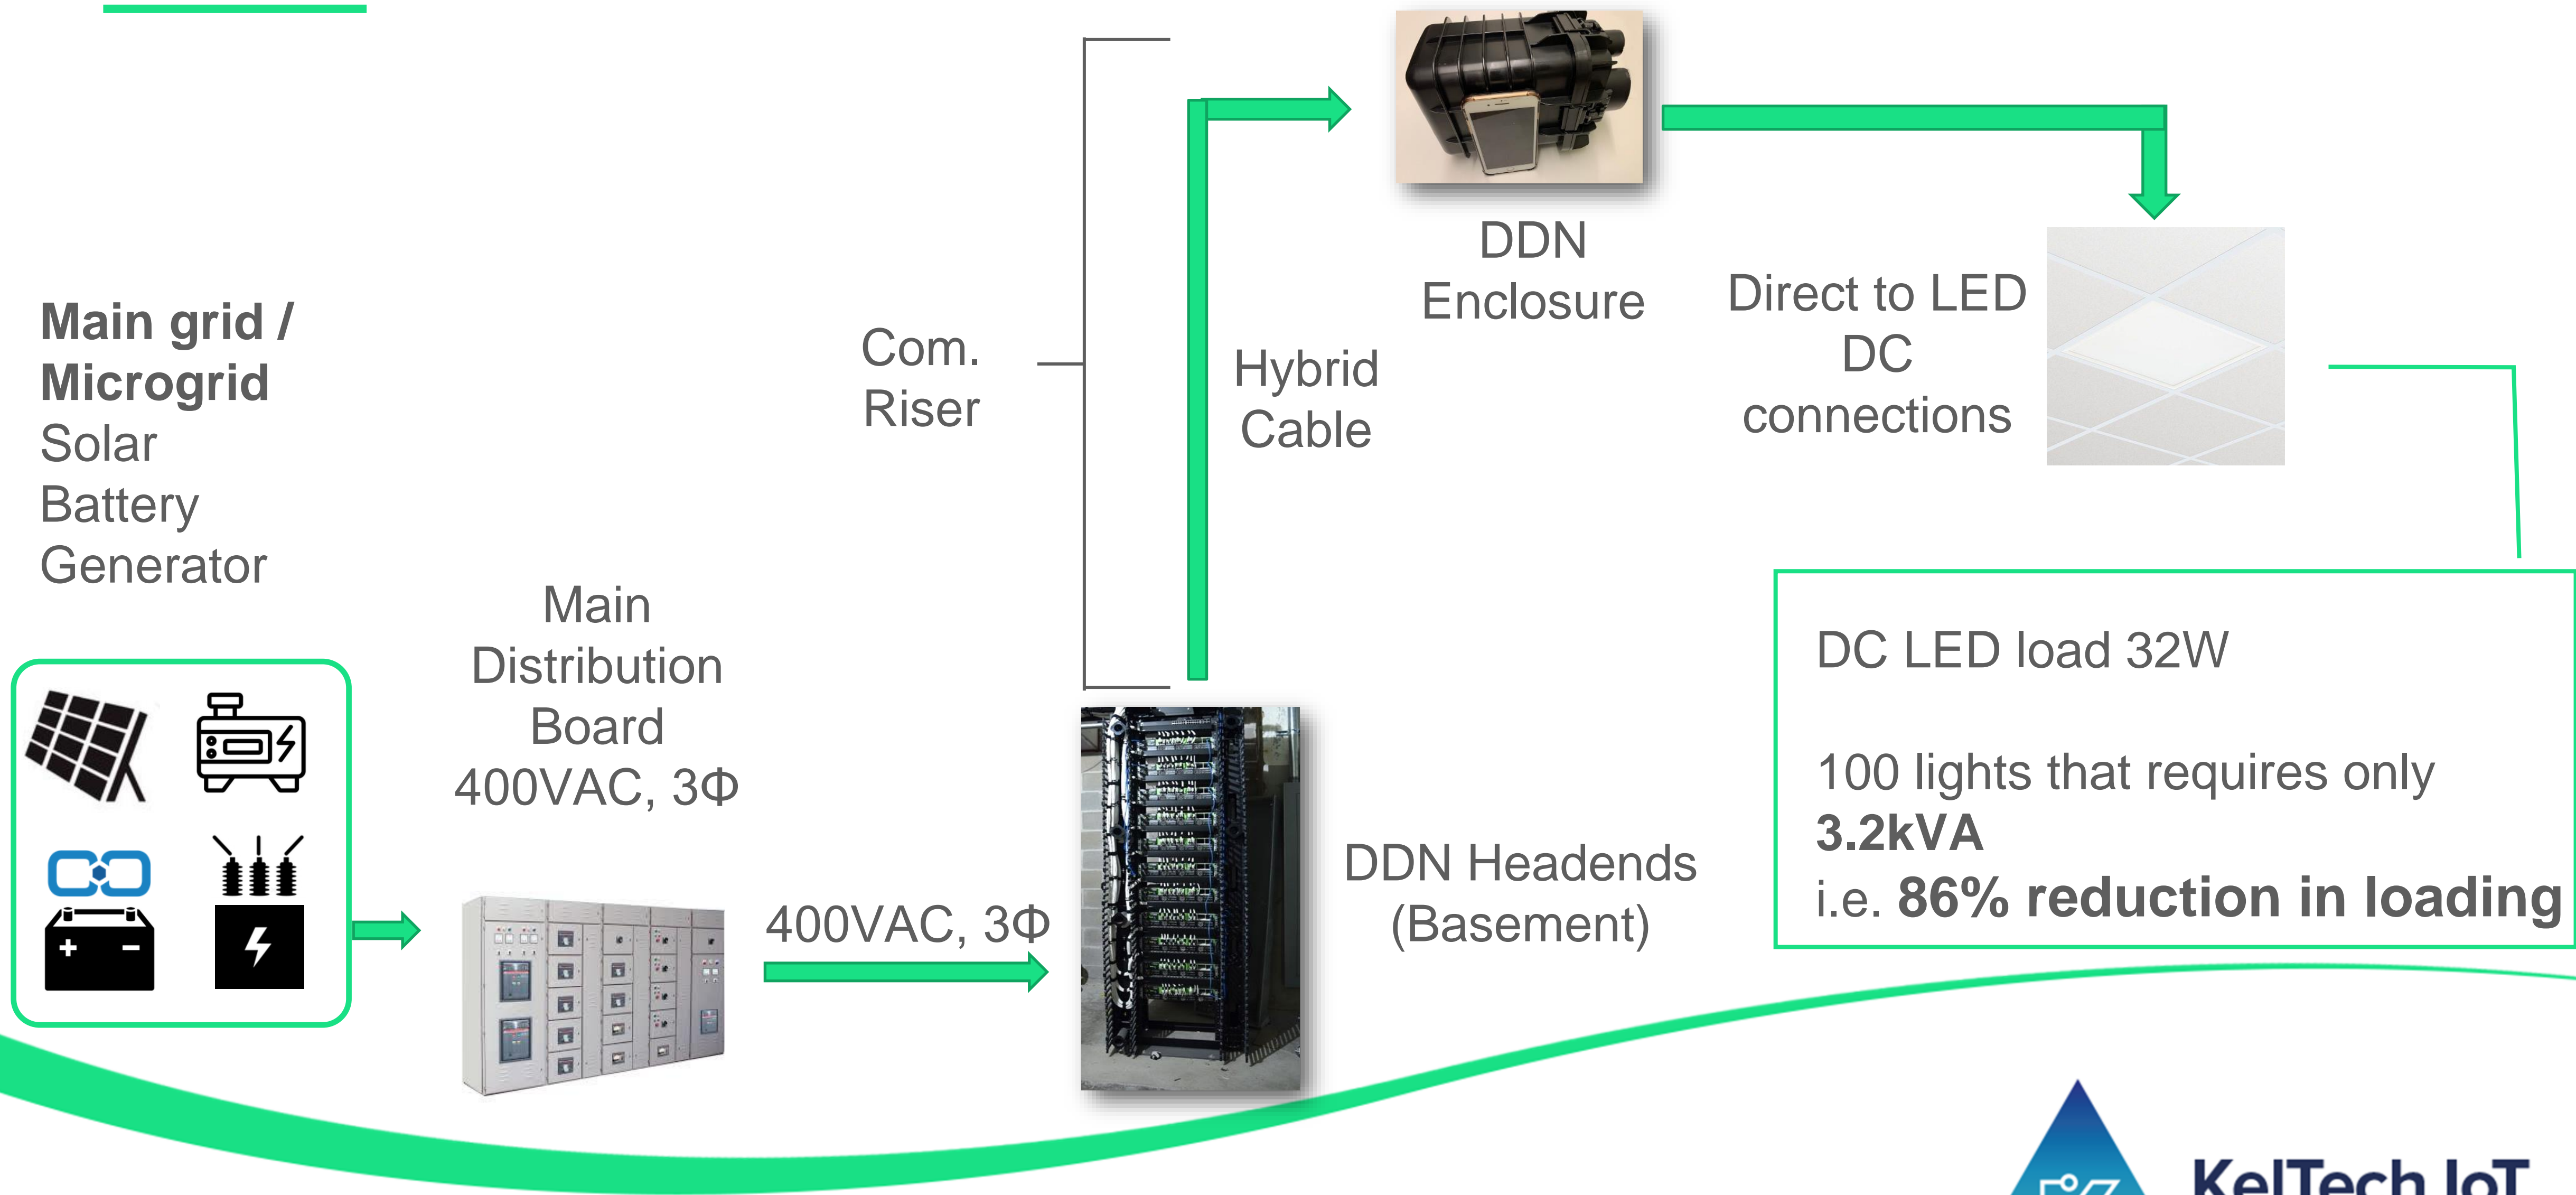

DDN Applications - Commercial Offices 80% Reduction In Energy Loading Needed!

DDN Applications – LED Lighting Scam!

DDN Applications - Commercial Offices – LED Lighting As It Should Be!
