Opportunities

Productive Innovation

Designed to support projects related to:

- ❖ The production of new products and services, or significant improvements to current production;
- ❖ The adoption of new or significantly improved manufacturing processes and methods, and in the case of SMEs, logistics and distribution, as well as organizational methods.

This program provides a Non-Repayable Incentive (Grant) of **20%** to **60%**, tailored to the unique location and characteristics of each project.

Opportunities

Internationalization

This incentive is designed to enhance the business capabilities and global presence of SMEs by supporting their internationalization efforts and boosting export potential, whether they are entering new foreign markets or consolidating their existing market presence.

Eligible expenses include travel to international markets and fairs, and inviting strategic partners to Portugal.

This program provides a Non-Repayable Incentive (Grant) of up to **50%**.

Opportunities

Qualification

Incentive aimed at supporting investment projects with the purpose of strengthening the business capabilities of SMEs through Organizational Innovation, by applying new methods and processes.

This program provides a Non-Repayable Incentive (Grant) of up to **50%**, tailored to the unique location and characteristics of each project.

Opportunities

Research and Technological Development – R&D

Incentive aimed at supporting Research and Development activities that result in the Creation of New Products, Processes, or Services or the Introduction of Significant Improvements in existing Products, Processes, or Services.

This program provides a Non-Repayable Incentive (Grant) between **40%** to **80%**, tailored to the unique location and characteristics of each project.

Opportunities

Hiring of Highly Qualified HR

Incentive designed to encourage SMEs to hire highly qualified human resources, specifically those with a Bachelor's degree or higher, aiming to enrich the companies' human capital with advanced skills.

This program provides a Non-Repayable Incentive (Grant) of up to **50%** tailored to the unique location and characteristics of each project.

Opportunities

Internationalization via E-commerce

Incentive aimed at promoting the digitalization of the Portuguese economy through the technological adaptation of companies, digitalization of business models, and the awareness and training of workers and entrepreneurs.

This program offers a Non-Repayable Incentive (Grant) of up to **50%**.

Funding ranges from €10,000 to €25,000 for new exporters and €25,000 to €85,000 for experienced e-commerce companies targeting international markets.

Opportunities
