23rd ANNUAL CONFERENCE

Rome, Friday 4th November 2011

EUROPEAN AIR LAW ASSOCIATION (EALA) 23rd ANNUAL CONFERENCE

EALA is pleased to invite you to attend its 23rd annual conference which will be held in the magnificent Palazzo Spada in Rome. Since 1989, EALA has arranged conferences and seminars in Europe focusing on important legal issues regarding the aviation industry. We believe that over those 23 years EALA has gained international recognition and respect as a leading forum for the discussion of topical developments regarding aviation law, especially so from a European perspective.

The mission of EALA is:

- To serve as the leading and essential association addressing the development of air law in Europe.
- To ensure dissemination of information about, and the study of, air law in Europe.
- To be a forum for the exchange of views and provide an opportunity for those interested in European air law to meet each other.
- To engage in or promote any other activity which the Committee decides is in furtherance of EALA's principal objectives.

The year 2011 has again been a fascinating year for international and European aviation. Whereas the past years have been marked by a focus on EU-US discussions, the EALA conference of this year will pay attention to regulatory aspects of relations between EU Member States, the EU and Russia. This truly European subject has various angles, varying from

market access, the recognition of EU law in the bilateral air agreements between the EU states and Russia, and the environment.

Traditionally, competition is a prominent subject on our agenda. Among others, the consolidation of transatlantic alliances and the cargo surcharges case deserve our close attention. The same is true for aviation relations between the EU and Arab States and their carriers in which context the maintenance of a level playing field under internationally recognised standards will be examined. Bankruptcy of air carriers has become widespread in the EU internal market. The adequacy of market exit rules and procedures will be an important point on the agenda of this session. Finally, airports are playing an increasingly important role in the aviation sector. That is why the EU Commission proposed an "airport package" in which the many different aspects of airport-airline relations are addressed.

It seems to us that Rome is an excellent location for bringing together people to discuss these developments and put forward new ideas. We advise you to not miss the unique opportunity to be updated on the aviation industry and its legal regime, to visit the beautiful city of Rome and to take full advantage of the opportunities for catching up with others interested in European and international air law.

EALA is grateful for the generous sponsorship provided by Alitalia S.p.A., Allianz S.p.A., SITA and Blue Panorama Airlines S.p.A.
