EUROPEAN AIR LAW ASSOCIATION (EALA)

36TH ANNUAL CONFERENCE

EALA is delighted to invite you to attend its 36th Annual Conference, to be held in Barcelona. The Blériot XI, which is famously known for having accomplished the first crossing of the English Channel by air in 1909, was the first aircraft to be operated in Spain, departing from the very spot where Barcelona's present day, Josep Tarradellas - El Prat Airport is located. The El Prat Airport is now a genuine destination airport because this city has become a monumental place in Europe for historical, cultural and touristic reasons. In that context, El Prat Airport has significantly contributed to the development of aviation in Spain and has positioned itself as one of Europe's top airports.

EALA'S MISSION

Since 1989, EALA has arranged conferences and seminars in Europe focusing on important legal issues regarding the aviation industry. Over those 36 years, EALA has gained international recognition and respect as a leading forum for the discussion of topical developments regarding aviation law, especially from a European perspective. The mission of EALA is to:

- serve as the leading and essential association addressing the development of air law in Europe;
- ensure dissemination of information about, and the study of, air law in Europe, and
- be a forum for the exchange of views and provide an opportunity for those interested in European air law to meet at EALA's events.

EALA'S 36TH ANNUAL CONFERENCE

As always, air transport is on the move, and with that, air law and policy. It keeps on attracting attention from many sides, including and foremost its users, but also national, European and global policymakers, legislators and courts, because an increasing number of interests have to be matched. These include market opportunities which must be conciliated with the protection of safety and the environment, facilitation and logistics of operations. This year, special attention will be devoted to the 80th anniversary of the constitution of international civil aviation, laid down in the Chicago Convention of 1944. Traditionally, the EALA annual conference will be terminated by the presentation of the EALA awards to two students who have been selected by EALA's academic committee. The first prize winner will summarize his or her paper. After that, all participants are invited to attend cocktails. Please book at your earliest convenience for this interesting event organized by EALA.
